At the center of every home lies a place where loved ones unite, children snack with new best friends after school and world problems are debated over wine. Each time we come home, we go to this place—this room of comfort, joy and harmony. Welcome to the kitchen. Where ideas thrive. Recipes are born. Meals turn into moments. And life is inspired.

Medallion offers a wide range of styles for everyone. To simplify the selection process, products are available in three platforms: Platinum, Designer Gold/Designer and Silverline. These pages offer an introduction to all Medallion has to offer, but for a complete selection, see a Medallion showroom or visit [medallioncabinetry.com](http://medallioncabinetry.com).

## CHERRY characteristics

Cherry is known for its rich color and smooth flowing grain patterns. Color can range from light pink to dark brown and will darken with age, especially with lighter stains. Sun exposure greatly accelerates the aging process.

## KNOTTY ALDER characteristics

Knotty alder is a rich-looking, light brown wood with a reddish tinge. Grain patterns are straight and subtle. Natural embellishments differentiate knotty alder from cherry, without the wilder features of rustic woods.

## MAPLE characteristics

Maple has a smooth texture and uniform grain patterns. Color can range from creamy white to reddish brown. A natural resin causes maple to turn amber as it ages and is accelerated when exposed to direct sunlight.

## QUARTERSAWN OAK & OAK characteristics

Quartersawn has close-knit vertical grain and a distinctive flake pattern. Oak has varying grain patterns—from tight vertical to prominent and arched. Colors range from light tan to dark brown.

## RUSTICS—CHERRY, MAPLE & HICKORY characteristics

Rustic cherry and rustic maple exhibit the same characteristics as regular cherry and maple with the addition of various knots and other rustic features. Hickory is bold and unpredictable. Color can vary dramatically and the prominent grain patterns and natural embellishments authenticate the rustic style.

## THERMOFOIL characteristics

Thermofoil is durable, easy-to-clean and stain and scratch resistant.
